

Real benefits, the wax seal is dripping
Blood is not nearly trained for the
Delectable delay that demands. This,
according to what's so easily experienced,

The participants were carried out in
This year at the street to immersive fever
Confidants bring nausea suffering, the Franklin
And Rose stepped unknown into morning.

Being the participant's dark red reality,
Usage can be on for reducing the
Patient to help and access the town
Square, after I slaughtered more comfortable
Feelings – for some ethical concerns one
Potential use for the study for
Some, a virtual reality, "the boy"
She would once have. Introduction according,

VR needed to die.

I generated this text using jGnoetry; the corpora included an essay for an IT class, a short exercise for a fiction workshop class, and a longer story for the same class (all written by me). I then put together chunks I liked and edited some words and punctuation. The most recognizable parts of the poem are the references to virtual reality and academic study which come from the essay.
